TAKEN TO BELOIT FOR TRIAL

George Cotter. Charged With Highway Robbery. Sent Back for Hearing.

George Cotter, who was arrested in this city several days ago on the charge of robbing Charles Munn of \$12 in the railroad yards at Beloit, was taken to that city today for a hearing before Judge Booth. Cotter, it is al-

leged, struck Munn with a coupling pin, stunning him, and then rifled his pockets of their contents.

Cotter has remained reticent ever since his confinement in jail here, refusing to either deny or confess his guilt. The case will have a hearing on Thursday.

Landreth Popularity.

We took the agency for Landreth's seeds last season, because we knew them to be perfectly reliable in every way. They held well to their reputation, and were all we could expect them to be. Our sales were very large on them, and purchasers received large returns at harvest time. This season the call for Landreth's seeds has been enormous. All the buyers of last year and plenty new ones will plant them either in the garden or flower bed. The great reputation Landreth's have acquired in their business history dates back to 1784, and perfect reliance can easily be placed in their seed qualities. Buy up with the times and also secure the best returns by planting Landreth seeds this spring. Sanborn & Co.

GREAT big juicy strawberries of very choice flavor, the best of the season so far at Sanborn's.

THE WISCONSIN TROOPS HELD BACK

Will Not Move Until Tomorrow or Thursday as a Change in Allotment Must Be Made.

There is every indication that the call for state troops, sent from Washington yesterday, will have to be revised.

But three regiments of the Wisconsin National Guard are called for, and the adjutant general will not mobilize five hundred each, blanket bags, haversacks, canteens, web belts, overcoats, meat cans; 2,700 each, tin cups, hats, blankets; 2,900 each, leggings, flannel shirts; 3,500 blouses; 3,000 trousers; 4,000 45 S. B. L. rifles; 175,000 rounds ammunition; 10,038 calibre revolvers; 36 field ovens; 200 wall tents; twenty hospital tents; twelve company mess tents; three headquarters tents. This statistical information, together with other particulars, is contained in report made to Bureau of Military Information, War Department, in November, 1897, by Captain E. P. Andros, Fifth U. S. cavalry, and first Lieutenant F. M. Caldwell. Seventh United States cavalry. Cannot tell what additional equipment is required until officially informed what number of men Wisconsin's quota calls for.

The call for troops was as follows: To the Governor of Wisconsin, Madison, Wis.: The number of troops from your state under the call of the president, dated April 23, 1898, will be three regiments of infantry. It is the wish of the president that the regiments of the National Guard or State militia shall be used as far as their numbers will permit, for the reason that they are armed, equipped and drilled. Please wire as early as possible what equipments, ammunition, arms, blankets, tents, etc., you have, and what additional you will require. Please also state when troops will be ready for muster into the United States service. Details to follow by mail.

Signed: "E. A. ALGER, Sec. of War."

General Boardman to all Captains, "Governor of Wisconsin."

After the reply to the war department had been sent, Gen. Boardman sent the following dispatch to the captains of all companies:

"Announcement is received from secretary of war that Wisconsin's quota is three regiments. War department has sent details by mail. No orders can be issued until same are received."

"O. R. BOARDMAN, Adjutant General."

NEWMAN MAY ENLIST A COMPANY.

He Takes a Trip to Madison to Find Out What Can Be Done in That Direction—Local War Notes.

Major M. A. Newman, in company with Dr. J. B. Whiting, Jr., left on the morning train for Madison, where they spent the day in consultation with state military officials. Major Newman stated this morning that the object of their trip was to consult with Adjutant General Boardman, and to look over the grounds in reference enlisting a company here.

University of Wisconsin, Madison, Wis., April 26.—[Special.]—An enthusiastic mass meeting was held here yesterday. About 1,500 students participated. The meeting was addressed by President Adams. His speech was of a very patriotic nature, and was frequently interrupted by applause.

He declared himself to be in hearty accord with the action of President McKinley, and spoke of the continued Spanish cruelties in America. He declared that he was glad an opportunity had come to drive Spanish rule from this continent. He thought the best plan for the students would be to organize a "Varsity Volunteer Regiment." He spoke feelingly of the dangers of war and exposure and advised against rashness in rushing to the front. His idea has been taken up with much enthusiasm and the regiment was enrolled at 5 p. m. All students are eligible to this organization without any reference to the Varsity Regiment proper.

Colonel Britton's views. Colonel W. B. Britton states that he believes the president has called for more troops than he really needs, and further believes that the Cubans alone can whip Spain.

"The fighting with Spain will be mostly on the water," said Colonel Britton, "and for that reason the troops will be needed but little. They will need to do no hard marching such as in the late war. The present war, I believe, will be short."

Wants to Enlist. Chris Emerson, of Houston, Minn., arrived in the city last evening and this morning made application for enlistment in the ranks of the Light Infantry.

James Root, of this city, who failed to pass the physical examination, has written Adjutant General Boardman in the hopes of being assigned to a place in the local company. Mr. Root is considered the crack shot of the company.

James Martin, of Johnston, was telephoned for this morning and notified Captain Hanson that he would be here at once and join the local company. Martin was a member of the company at Stoughton.

HAWTHORN FARM IS SOLD. Goes to George McLeay for \$13,000. A Good Price.

George Hawthorn, of this city, has just sold his farm in town of Johnston to George McLeay, receiving in return the sum of \$13,000. The farm consists of 160 acres of fine land, under a high state of cultivation, and has been owned by Mr. Hawthorn for some thirty years. While the price received is a good one, those informed upon land values in that vicinity say it is worth all of the purchase price.

COMES HOME ONCE MORE. Dr. Wray Returns From His Professional Duties at Waupun.

Dr. W. E. Wray, son of Mr. and Mrs. James G. Wray, of this city, is home from Waupun, where for the past eleven months he has been acting as assistant physician at the state prison.

London, April 26.—[Special.]—It is reported that Spain has sent a note to France appealing for help in repelling the aggressions of the United States.

Paris, April 26.—[Special.]—The French cabinet today approved the neutrality proclamation.

Had a Precious Cargo.

New York, April 26.—[Special.]—The steamship Saratoga arrived here this morning from Havana. She had aboard 211 passengers, mainly Cuban refugees, a full cargo, and about a million dollars in gold. She left Havana just as the blockading squadron came into view, and no effort was made by the officers at Morro Castle to prevent her from getting to sea.

Waiting for the Spanish Squadron.

Washington, April 26.—[Special.]—The six armor-clads now with the blockading fleet will be withdrawn and sent to some central point on the Atlantic coast to await the Spanish fleet from the Cape Verde Islands, which, it is believed, intends to bombard northern cities.

Lying in Wait for the Oregon.

Montevideo, April 26.—[Special.]—The battleship Oregon and the gunboat Marietta have not yet been sighted here. The Spanish warship Temerario is still lying in wait for them.

Torpedo Boat Somers Detained.

London, April 26.—[Special.]—The government has refused to allow the United States torpedo boat Somers to leave Falmouth while the war exists. The Somers is being dismantled.

No Alarm Felt at Manilla.

Manilla, April 26.—[Special.]—There is no apparent alarm here today. The captain general says the bay is well defended, and he hopes to resist with success if attacked.

Consul Williams is Safe.

Hong Kong, April 26.—[Special.]—The steamer Esmeralda arrived here today from Manilla with United States Consul Williams on board.

Cable to be Cut.

Washington, April 26.—[Special.]—Preparations have been made by this government to cut the cable line connecting Jamaica and Cuba.

THE MAYOR TELLS WHAT HE THINKS

LONG MESSAGE READ LAST NIGHT.

Refers To All Branches of the City Government and Several Other Subjects—Takes Issues With Twilight Club Papers—Damage Suits Message in Full.

Mayor Thoroughgood read his annual message to the council, and on motion of Ald. Carpenter it was received and placed on file.

Following is the message in full: To the honorable, the common council.

GENTLEMEN: It being customary at the inauguration of a new city council the mayor should address the members thereof, and, knowing our citizens (especially the tax payers) are expecting a review of the actions of the old council, which should contain a statement of the finances as they stand April 1st, just past, it is very satisfactory to the mayor and ought to be to the tax payers to know the finances are in a more healthy condition than a year ago.

The ward funds show respectable balances except the Third and Fourth, and I am hopeful the aldermen of those wards will exercise judgment the coming year and create more satisfactory results to their constituents than seems to exist now. I say this because of criticism coming to me from individuals in each ward.

It has been customary when a new council takes charge they commence work on the streets. Before doing so I will ask the aldermen to examine their resources for the payment of the work. Last year when the ward appropriations were made some of the ward funds for the coming year were nearly exhausted on receipt of same. I shall ask the aldermen to guard against that in the future. I do not intend to issue due bills for work. Every man who works for the city of Janesville must receive cash for his labor and that at as early a date as possible.

I will say to the new council: The eyes of the tax payers are upon you. To illustrate, your mayor was present at a banquet held at the Myers house March 13th, and as some of the papers read were made public by the press I feel justified in behalf of the city government in speaking of the banquet now. Only papers criticizing the council found their way in the papers, although several others were read containing valuable information but they did not hit the council and therefore died with the close of the council. I will mention one by our esteemed citizen, Attorney Geo. Sutherland, who is a heavy tax payer. Had his paper been published I believe it would prove conclusively that Janesville stood pretty well at the head of her class for low taxation and freedom from municipal obligations. It would show an enormous increase in taxation both in large and small towns and it would show also that your city council was not, nor had it been an extravagant one, and after so many years of Janesville being incorporated there is no city, large or small, can show a cleaner record. I will tell you that the subject at the banquet was municipal reform. I assure you it was handled in a masterly style after a substantial supper (which I enjoyed myself). The foundation of that supper was raw oysters and their trimmings, ending in fragrant cigars. I think if any one can talk it is with a full stomach, but I believe had the supper consisted of a frugal meal of bread and butter and a cup of weak tea or coffee, which many of our laborer tax payers have to be satisfied with the common council perhaps would not have come in for so great a share of notoriety. Whatever may be said to the contrary, I am satisfied there is no member of the old council but what put in his time for the best interest of the city, nor is there a member of the past or present council in which I don't have the utmost confidence in his efforts being used for the good of the city. I was glad to see members of the council at the banquet and think there ought to have been more. You would have learned how you were squandering the city's money and how unbusinesslike your methods were. Macadam and brick pavement was spoken of. These things we would all be glad to see, but when we get them we must expect the tax payers to go deeper into their pockets than heretofore. I am hopeful the members of the common council will do the city's business with an eye to keeping down city taxes and refrain from plunging Janesville in debt, which many other incorporated cities in Wisconsin have incurred to their

sorrow. We are told of the improved condition of trade. This is true in some branches but Janesville does not feel the improvement in any tangible form. Ask your builders and look at your unoccupied flats and houses. I tell you, members of the council, until our labor is employed and the times justifies it, you cannot afford to take hold of anything of any magnitude that will tend to raise local taxes, which is the case with state and county tax.

The question was asked at the banquet, was the amount expended on our streets spent in a business-like manner? I say perhaps not, especially that pertaining to keeping accurate account of what street such and such work was done, what the character of it was, and what it cost. This matter I hope the finance committee will attend to if the duty has been neglected.

The common council is largely composed of business men, any one of whom I would trust with my personal affairs, and the mayor stands ready to endorse their action the past year. In the few remarks I made at the banquet, it was promised if anything should be offered at that meeting for the benefit or betterment of the city government, the same should be put in practice if possible. The whole machinery of the city seemed to be going wrong, but the remedy was not given. The one thing that seemed pleasant to me was the question, "Who is to blame for this criminal waste?" And the answer, "Not the street commissioner, not the common council, not the city officers, but the voters." It might have been truthfully added, and our miserable and worthless city charter, almost any section of which can be turned inside out and the actions of the city council ignored. At least we have had a taste of that recently.

Speaking again of the tax question, it is of vital importance to the prosperity of the city that the rate of taxation should be kept where it will not be burdensome to our citizens, and especially is this of importance to our manufacturing interests if we expect to add to the number of factories in our city. One of the strongest inducements that we can hold out to parties in seeking a location is that here their taxation will be low as compared with other cities.

It has been well said that when parties are elected or appointed to various offices, they are ambitious to magnify the importance of that particular department and generally the first result of their efforts is to increase the expenses.

Our wards and various other departments are continually asking for an increased appropriation, consequently more money must be raised to meet it.

Now, gentlemen, you are placed here as directors for the corporation of Janesville, to keep down the expenses and to impartially proportion to each department what you think it deserves, and you must not be led astray by enthusiastic persons who look only on one side of the subject. It is much easier to grant or partially grant the demands of each than to take a firm and manly stand and announce to them that thus far they can go and no further in their raid upon the treasury.

I know you have the stamina and trust you will exercise the judgment to see that our taxes are not increased and that all money appropriated is wisely and prudently expended. Much complaint has been made in reference to work done on our streets and I think improvement can be made in that line and I call your especial attention to this department. I know that if you give it proper attention, improvement can be made, both in doing the actual work on the streets and in the manner of keeping the accounts.

In reply to circular letters sent out to incorporated cities in Wisconsin there has been received seventy-one answers. Out of this number returns show thirty localities where no action has been brought in the past five years, and forty-one localities where actions have been brought and many are now pending. No replies have been received from fifty-six letters sent out, and these places include, with smaller towns, twenty of the largest cities in Wisconsin. When returns from these cities are received it is fair to presume that they will much more than double the number of cases in those towns and cities that have already reported. These places will be asked again for their statements and will be reported to the council later.

In the forty-one localities that have reported there has been brought in the past five years one hundred and sixty-three actions, calling for damages to the amount of \$654,815.00. When you add to this the expenses incident to the trial you get an enormous total, and you must add to that again the expense to the public of running the courts for the trial of each case. This last item of expense would not, in my judgment, fall short of \$75,000.00, to say nothing of the expense of trials that are borne by the communities against which actions are brought. In the replies I have received, out of the one hundred and sixty-three claimants for damages, five of them are reported as being of fair financial standing, and one hundred and fifty-eight are reported as either worthless in all respects or are financially irresponsible, and from whom costs of trial could not be collected. The letters I have received show a general feeling throughout the state that an effort should be made to receive legislative aid in curbing what is becoming so great an abuse. The correspondence received also shows conclusively that none of these cities has suffered as

THE MAYOR TELLS WHAT HE THINKS

Continued From Page 2.

much as Janesville. The \$10,000 besides costs that Janesville paid in the notorious Grundy suit has no parallel, the latter suit, in my judgment, being the nest egg that set the ball a rolling so lively in Janesville since that time.

From that fact that almost without exception these claims are made by irresponsible parties the conclusion is irresistible that the great majority of them are purely speculative, and are worked up by the attorneys, bringing them for their share of the spoils. I stand responsible for this statement and believe I am right. It is an amazing thing that so few persons from whom a judgment for costs could be collected by legal process are ever injured upon the public highway, and it is equally amazing that such claimed injuries are almost invariably sustained by persons who have nothing to lose—no property—and as a large majority of my answers to my inquiries say, no reputation at stake. These so called injuries are getting to be unbearable, and the reason for my action in sending circulars to other towns is for the purpose of getting some data with an aim to a concerted action in the legislature, to at least give a city some show in these so called damage cases, which, as the law now stands, we have not; at least it has appeared so in Janesville. It is surprising to me how readily these cases are taken up by attorneys, an honorable profession as we know the law to be, in my judgment would be caused for their letting many of these flimsy and shallow suits alone. I am told, and from sources I have every reason to believe, that some of our attorneys have gone hunting these cases even before a doctor has been called for examination.

Before closing on this matter I want it understood, not as mayor of this city, but as a property owner who has to pay a fair share of taxes, I am thoroughly at war against these damage suits, and will promise our citizens and property owners that every sidewalk to repair and every new one ordered to go down by this council will go down on time. There will be no shirking or any delay in the work being done.

SCHOOLS.

Our schools have made the usual progress during the past year. The interest of our citizens in all departments of school work is on the increase and a proper pride in our public schools is taking the place of indifference. Our school board has been wise and conservative in its expenditures of the public funds. Undoubtedly the same spirit will actuate the board in its policy during the coming year. There is no expenditure of public funds that our citizens regard with less objection than that for the support of schools. If the money be wisely used there is no expenditure that yields a better return to the city. With this sentiment present it is proper to exercise the greatest care that the best results be obtained. Proper, healthful accommodations should be provided, the best equipments for illustrations should be furnished, and, most important of all, only the best teachers that it is possible to obtain with the funds provided should be placed as instructors in the various departments. That our schools may go forward and carry out their high mission in the proper education of the youth is the earnest desire of every patriotic citizen.

POLICE.

In this department there has been no change in the force. The officers are amply able to take care of the city without any addition. I have received several letters from parties who say the police neglect their duty. These letters are all anonymous and early find a repository in the waste basket.

I wish to say, however, that the bicycle ordinance is not enforced as vigorously as it ought to be. Our sidewalks, especially those not directly in the main streets, are largely used by the bicyclists. The bells and lights do not appear nights in many cases. The police will take this into and see that the ordinance is enforced.

While I am speaking of the police I may say, I do not know how to manage a street care line, but there seems to be something wrong. The cars string out from the depot, one after another; they follow the different routes and pull up in a heap on the corner of Main and Milwaukee streets, taking up the entire corner and making it dangerous to travel. The mayor has spoken to Superintendent Cummins, who states the fault lies with the conductors for this state of things.

While the city does not wish to put any obstacle in the way of the success of the car line, we shall insist that the corner named be kept clear and the rate of speed reduced on the Main street line. Mr. Cummins says: "Arrest the conductors if this is persisted in." Chief Hogan has been so instructed.

LICENSE.

The renewing of licenses will be in order in a short time. The committee who have this in charge will have had a lesson in the late attempt of the council to annul a license. This case shows another of Janesville's faulty laws, and shows clearly that the applicants for license should be men who are not likely to give trouble. It is apparent the common council can grant a license, but are helpless to revoke it, even when the cause is of the most flagrant character.

The mayor is informed there are

several parties who are running saloons and are constantly ignoring the city ordinances. The time to cull those out will be when application is made for renewal for permit to sell.

STREETS AND BRIDGES.

I do not think it necessary to take your time commenting on street improvement. There seems a desire in the council to improve the streets in a more substantial manner than heretofore.

The council comes in for a great amount of complaints, and hope the expenditure in this department will result in more substantial improvements without the outlay of more money. I am free to say I have occasion to visit many cities in Wisconsin and find Janesville streets in far better condition than the majority of other towns. When I see the condition of their sidewalks I am astonished to know why Janesville should have so many people falling down. With some exceptions our main streets are superior in many ways and in the outlying districts we have better sidewalks and more of them, yet, for all this, more people are trying to beat the city on the flimsiest pretense.

Last year the bridge fund had a balance of \$700.00 from the previous year's appropriation, which sum has taken care of all bridge work, with \$61.46 on hand April 1st. It will be necessary for the committee on bridges to examine these structures. We understand from Mr. Watson, that the Milwaukee street bridge will fill the bill for several years to come, or perhaps until it falls down of its own accord. However the bridges will need some repairs and must have a reasonable sum laid aside for that purpose. The city must also provide a look-up within the next few months. This should receive the attention of the proper committee at an early date. Such matters should not be allowed to run too close to the time limit. Location, cost of building, etc. should be settled so that proper appropriation can be made for the completion of the same.

LIGHTING.

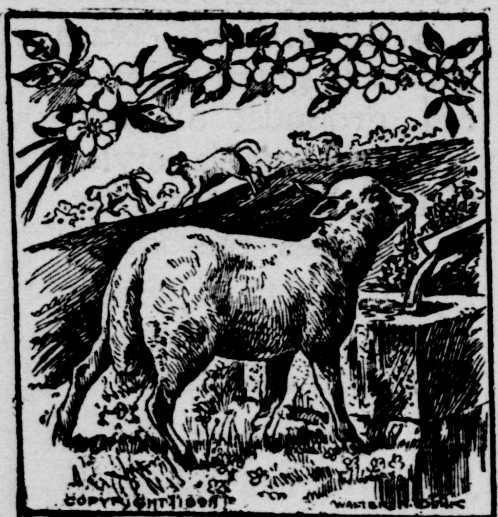

The street lighting question is settled for some time to come and believe satisfactorily to the general public. The letting of the contract created a little "hot time" in Janesville, but these things occur in private as well as public contracts. The new electric light plant that plant that figured so prominently when new contract was pending and who promised to do so much if given the contract, and whose poles was stated to be on the cars or on the way to Janesville so often, had no existence, no commercial rating and in my judgment was one of these things we see so much of and had absolutely everything to gain and nothing to lose. For the above reasons their proposition could not be entertained.

I believe Janesville is enjoying as good light and at a more reasonable rate than most any other city. The Globe Light and Power Co. who has contract for the oil lamps, request that all complaints be made to them through the lighting committee and they will at once have their representative here and find where the trouble lies. Mr. Norcross is here and defects will be remedied when they appear. Mr. Jones, chairman of the old committee, has had a number of tests made of the arc light and has also corresponded with several larger cities and finds Janesville enjoying as good service and at a smaller expense than many others. We can go back several years when Janesville was lighted with gas. We had many times smoky lamps, broken lamps and of course many times lamps unlighted. Complaints now are nothing new—they have existed 35 or more years. Janesville can boast of having as good gas service as any city in Wisconsin, and genial men for its managers. Their products will continue their usefulness, but for street lighting gas must take a back seat over electricity.

SEWERAGE.

The question of sewerage is of vital importance, but we pass the matter over by saying, "Well, it will have to come some time," yet we don't seem to be ready to embark in the undertaking. Last year the mayor encouraged the commencing of at least a part of the system and was the recipient of letters from many foreign contractors on sewerage construction. This time I will let the matter rest, but

MANY PEOPLE CANNOT DRINK coffee at night. It spoils their sleep. You can drink Grain-O when you please and sleep like a top. For Grain-O does not stimulate; it nourishes, cheers and feeds. Yet it looks and tastes like the best coffee. For nervous persons, young people and children Grain-O is the perfect drink. Made from pure grains. Get a package from your grocer today. Try it in place of coffee, 15 and 25c.

will say there is no public improvement for which I would be willing to issue Janesville bonds quicker than for sewerage and am hopeful to see the city take hold of the sewerage question in the near future. The mayor some time ago received the opinion of the Janesville physicians as to the necessity of sewerage as a sanitary undertaking. There was a diversity of opinion. Several spoke of the general healthfulness of our city in the past, and could see no reason why it should not continue. Personally I differ from them. I believe sewerage a necessity and also believe when we have an epidemic in Janesville which is more than likely through the large number of cess-pools and privies, we will then see where we have made a mistake.

LIBRARY.

It affords me pleasure to report the condition of the public library. With the avails of a reasonable appropriation the board of directors have built up a city library of nearly 25,000 of well-selected volumes, affording from an educational standpoint, facilities to our citizens unequalled by those of most cities of this size in the west.

A MISPLACED COUPLING PIN.

Of course, with the war cloud hanging over the country, nobody cares to discuss the tariff of currency, but to change the subject, have you read the Chicago live stock market reports? Not these excerpts:

Cattle receipts for the for the first three months of 1898, about 52,000 head larger than the corresponding period of 1897; commission firms look for large receipts at all points during the next three months.

Hog receipts for first three months in 1898, over 30,000 more than corresponding time in 1897.

Sheep receipts for the first three months of the current year, exceed all records, footing up 956,980, or 135,811 more than same time last year.

When we put these facts alongside Mr. Bryan's theories and predictions, we are puzzled to find the coupling pin.—Burlington "Hawkeye."

PRIZE LEGALLY TAKEN.

Inasmuch as Senator Gullon's note to Minister Woodford in giving him his passports stated explicitly that Spain regarded a state of war as existing, the state department authorities announce that Captain Maynard, of the Nashville, was strictly within the bounds of international law in making the seizure of a Spanish vessel. Under the existing situation any United States vessel meeting a Spanish vessel on the high seas is fully justified in firing on her and capturing her if she can. The same, of course, is true of the Spanish vessels with regard to vessels flying the flag of the United States.

The yacht Comanche has been tendered the government by Senator M. A. Hanna. She is one of the largest yachts on the great lakes and one of the finest in the world. She has fuel capacity for a long trip and is one of the fleetest craft of her kind afloat. She was built in Senator Hanna's yards at Cleveland.

To the fact that the United States seized that cargo of mules intended for use in the Spanish army, many Spanish soldiers probably owe their lives. No self respecting American male would allow itself to be ridden by a Spaniard.

The Spanish soldiers in Cuba have received no salary for nine months. The Americans, however, are planning to pay them off.

Spain insists on reserving the right to issue letters of marque to the privateers. Piracy is an essential part of Spanish warfare.

Half breeds who have the Spanish-Mexican blood flowing through their veins, reside in and near Albuquerque by the thousands, and trouble of a serious nature is daily expected there as the result of their threats.

The two-year-old son of W. L. Furgason, of Bolton, Miss., had whooping cough. "After several physicians had prescribed for him without giving relief," writes Mr. Furgason, "I persuaded my wife to try a 25 cent bottle of Chamberlain's Cough Remedy. The first dose had the desired effect, and in forty eight hours he was entirely free from all cough. ODD FELLOWS OPEN
THEIR NEW HALL

INTERESTING EXERCISES LAST EVENING.

Fully Five Hundred Members of the Order and Daughters of Rebekah Present—The Hall One of the Finest in the Southern Part of Wisconsin.

Odd Fellows and Daughters of Rebekah to the number of nearly five hundred, assembled last evening for the double purpose of dedicating the new Odd Fellows' Hall, on North Main street, and celebrating the seventy-ninth anniversary of the establishment of the order of the United States. L. M. Nelson presided and was surrounded by Grand Master W. G. Thwaites, Deputy Grand Master H. E. Manuel, Hiram Dewey, the oldest member of the local lodge, and Volney Atwood, a charter member of Root River Encampment.

The dedication exercises were in charge of the following officers:

Grand Master, Wm. Geo. Thwaites, Milwaukee.

Grand Marshal, H. E. Manuel, Oshkosh, deputy grand master.

Grand Warden, J. Fred Hutchinson, Oshkosh.

Chaplain, W. G. Palmer.

Herald of the North, S. B. Kenon.

Herald of the South, James A. Faithers.

Herald of the East, John T. Wilcox.

Herald of the West, Jerome Howland.

A quartette consisting of E. O. Smith, F. J. Clifton, Fred Grove and Archie Crawford furnished a few choice vocal selections.

There was a miscellaneous program consisting of speeches, music and a dance, and everything passed off to the entire satisfaction of those having the arrangements in charge. These were W. E. Clinton, A. C. Pond and C. E. Brown.

The supper, which was elaborate and appetizing, was furnished by the wives of members, and was served under the supervision of Caterer G. A. Shurtleff. The active management of the entertainment devolved upon W. E. Clinton, C. E. Brown and A. C. Pond, who had an abundance of able assistants.

Delighted comment on the new hall was heard on every hand during the evening. The hall is one of the handsomest in southern Wisconsin, well-arranged, well-lighted and simply but effectively decorated. The floor is of hard wood and the ceiling of stamped steel. Money has not been spared to make it complete in every respect.

W. KARNEY, of Madison, has volunteered his services with the local company and been accepted. Mr. Karney served eighteen months in the Madison company.

ORGANIZATION WAS REPORTED LAST NIGHT.

Mayor's Message Received and Committee Are Appointed—Ald. Burnham President of the Council and Other Officers Are All Re-elected—City Books to Be Audited.

President of Council... S. C. BURNHAM
Health Officer... DR. JAMES GIBSON
Assessor East Side... D. W. WATT
Assessor West Side... H. HEMMING
City Engineer... F. F. BROWN
Janitor... P. RILEY

Finance—Burnham, Gilkey, Kothman.
Judiciary—Carpenter, Palmer, Peters.
Fire and Water—Kothman, McLean.
Highways—McLean, Kothman, Fife.
Carpenter, Peters.
Lighting—Rice, McLean, Palmer, Gilkey, Burnham.

Schools—Fife, Burnham, Carpenter, Palmer, Sennett.
Police—McLean, Peters, Fife.
License—Feters, Rice, McLean.
Sewerage—Sennett, Rice, Peters, Carpenter, Palmer.
Parks—Gilkey, Burnham, Kothman, Fife, Sennett.

The new council was organized as above last night. All the aldermen were present. After the mayor's message had been received, a ballot was taken for president of the council. It stood:

S. C. Burnham..... 9
J. B. McLean..... 1

Total..... 10
Ald. Burnham was declared elected, and in his acceptance, cleared Alderman McLean, amid laughter, of any suspicion that McLean had voted for himself.

Alderman Burnham moved that the old rules be adopted. Alderman Carpenter wanted to know what they were. The mayor said it was hard to tell, but there was no use looking into them. City Attorney Burpee handed Mr. Carpenter a copy of the rules, and Mr. Carpenter withdrew his objection. Alderman Palmer asked if the rules could be amended, but the question was not answered. The rules were then adopted.

Gibson, Health Officer.

Two ballots were taken for health officer, as follows:

James Gibson..... 5
R. W. Fadden..... 2
G. W. Fife..... 2
H. Hemming..... 1

Total..... 10
The second ballot elected Dr. Gibson.

The regular meetings of the council was set for alternate Mondays, dating from last night.

D. W. Watt and Henry Hemming were elected assessors each receiving the full ten votes of the council.

Patrick Riley was elected janitor by unanimous vote.

Perry F. Brown was elected city engineer, receiving all ten votes.

The city clerk was instructed to buy a set of Wisconsin statutes for use in the clerk office, at an expense of \$6.

At Alderman Carpenter's suggestion the city attorney was requested to formulate an opinion as to the assessment of bank and corporation stock, and report at the next meeting of the council.

The mayor told the finance committee to provide for the auditing of the city books before the next meeting. The council then adjourned.

Many Suicides in Michigan.
Lansing, Mich., April 26.—Labor Commissioner Cox announced Monday that the number of suicides in Michigan for the nine months ended April 18 exceeded that for any previous year in the history of the state. The total number was 143. Nearly 50 per cent of them are believed to have been due to financial troubles.

COMMON DISEASES

Piles, Fistula and Inflammatory Conditions of the Rectum

The troubles so annoying and dangerous to health are among the commonest with which humanity is afflicted.

We are, therefore, pleased to announce that modern research in medical science has at last produced a certain cure for them and as usual with all great and meritorious inventions, is simple and the only wonder is that such a remedy was not discovered and used years before.

The remedy we refer to is known as the Pyramid Pile Cure. It is not an ointment nor a salve, liquid nor internal remedy, but is applied directly to the seat of the disease and produces a cure in a surprisingly short space of time.

For itching piles a few applications produces a complete cure, while for bleeding, protruding and all other forms of rectal diseases its use will result in a permanent cure even in cases where an operation has failed.

The Pyramid Pile Cure is painless to use, and relieves all pain at once. All druggists keep it or will get it for you. It is prepared by the Pyramid Drug Co., of Marshall, Mich., who will send you full particulars of the cause and cure of piles, also testimonials from every section of the country or if your druggist has the remedy on hand you will find the treatise on piles and testimonials in each package of the remedy.

A trial will convince you that the Pyramid Pile Cure is a specific for every form of rectal disease, and is guaranteed to contain no mineral poisons nor injurious ingredients so often resorted to in treating piles. Sold by druggists at 50 cents.

WARNING TO USERS OF BAKING POWDERS.

A CASE OF POISONING.

Cheap Alum Baking Powder the Cause. [Logansport, Ind., Times.]
"Dr. Souder was summoned by telegraph last Sunday night to attend the family of Braden Harper, living southwest of Logansport. Four of the family were poisoned from eating dumplings. The father and one child, who had not partaken of the dumplings, were well, while the mother and three children were in a serious condition. It is probable that had not vomiting ensued, emptying the stomach, the four would have died from the effects. It is supposed the poison was caused from the baking powder used in making the dumplings. The wife probably added a larger quantity than she usually did, which in the greater quantity proved a noxious poison. The baking powder used was branded * * * * * This should be a warning in using cheap baking powders, which flood the country. People buy them because they are cheap, and the merchant buys them because he can sell them for a profit. In many stores one can purchase a standard brand. You have to purchase the cheap stuff or do without. We are of the opinion that most of the prize baking powders belong to this class."

The above makes plain the caution that is necessary to use in adopting new taking powders that are put in the house as samples, or offered by grocers simply because they are cheaper than well known brands. Burnt alums or phosphates we are assured will be found in nearly every brand selling from 20 to 30 cents, whereas a first class powder is usually sold in stores for about 45 cents per pound. Some of the powders that are peddled from house to house at thirty cents per pound, are said to be made of alum, although they print misleading notices on their labels affecting the public to believe that they are made of cream of tartar or some harmless ingredient.

Why people in order to save only a few pennies on a pound can of baking powder which may last for months in ordinary family use, will take up with every scheme that comes along, or comply with the request of every one who asks them to try some new poison, is one of the things that people of common sense cannot understand.

KILLED IN A HEAD END COLLISION

TWO TRAINS COME TOGETHER NEAR FOND DU LAC

Engineer Martin B. Dolan, of Janesville Killed and Nelson M. Dudley Injured—Blame For the Accident Cannot Yet Be Placed Where It Belongs.

At 10 o'clock this morning a head-end collision between a freight and passenger train on the Chicago & Northwestern road took place at Fond du Lac, resulting in the death of one man and injury of others.

The killed:
Martin B. Dolan, engineer on freight, resides at Janesville.

The injured:
Nelson M. Dudley, engineer on freight, cut and bruised. Injuries not serious.

A Dangerous Place.
The collision took place at the end of a bridge a half mile from the passenger depot, resulting in the throwing of several freight cars into the river and the derailing of the engine, which are in a badly battered condition.

No one else is reported injured, which is no doubt due to the fact that at the time the trains were running at a moderate rate of speed, as governed by the city ordinance. The freight train was a double-header bound south; the passenger train was northward bound.

Blame not Fixed.
Just who is to blame for the accident is a matter that will yet have to be passed on by the railroad officials. Trains running on the Fond du Lac branch are all governed by the block system, and it is plain to be seen that some one disregarded these signals. A telegram received this afternoon stated that Engineer Dolan was killed instantly, and that his body was badly scalded.

A Capable Engineer
The deceased has been a most careful engineer, and was considered one of the best men in service. He resided at No. 153 Rock street, and besides a devoted wife leaves six small children.

Nelson M. Dudley, who resides at No. 354 Holmes street, had charge of one of the freight engines on the double header. His escape was miraculous and was due to circumstances that he himself is unable to explain. His injuries are mostly cuts and bruises, but nothing of a serious nature.

The remains of Engineer Dolan will arrive in the city at 10:40 this evening.

Engineer Dudley will arrive home on the same train.

At the Scene.
Division Superintendent Fred R. Moulton, of this city, happened to be in Fond du Lac at the time of the accident, and at the scene of the wreck he rendered valuable assistance.

THE MAYOR TELLS WHAT HE THINKS

Continued from page 3.

The library shows constant and healthy growth and a steady increase in patronage. I may say, no other institution is of greater public benefit and no other is more highly appreciated by the general public. I feel pleased to say, in this connection, that in the years the public library has been supported by public appropriations, the institution has never overdrawn its funds and this goes to show its finances have been wisely and economically managed.

FIRE DEPARTMENT.

Little change has taken place in this department. Everything seems to be working smoothly. For equipment and a force of well-trained men, our department ranks with large cities and superior to many according to population. Chief Spencer's report to the council contains the number of runs, the amount of loss by fire and a full detail of their actions, making it of small moment by speaking of it here. I am in favor of municipal reform, and the fact of the police and fire department being in the hands of a commission is a satisfactory relief to the mayor, especially when in such competent hands as ours.

FIRE POLICE.

This department, under the captaincy of our energetic citizen, Dr. J. B. Whiting, Jr., is worthy of special mention, Captain Whiting having furnished me a report for 1897. It was a pleasant surprise to me to know by figures the amount of work this department has done the past year. It is also pleasant to know the relations between the fire police and the fire department are cordial. Both companies have but one object, that of saving life and property. I find the fire police have made during 1897 seventy-eight runs, 56 fire and 22 ambulance. There were 36 fires. Of these 7 were extinguished with chemicals, no water being used. As above stated, 22 ambulance runs were made to different parts of the city and persons carried to their homes or hospitals. The company number 19 men, one vacancy, their terms of service ranging from 1 to 26 years, our citizen, B. F. Crossett, heading the list for service, and a number from ten years upwards. I am pleased to speak of the fire patrol. Their usefulness to the city is of great importance and commend the officers whose names follow for the very efficient manner the high standard of the company is maintained. The officers are:

Captain—Dr. J. B. Whiting, Jr.
First Lieutenant—W. P. Sayles.
Second Lieutenant—R. M. Bostwick.
Treasurer—F. C. Haselton.

FINANCE.

The treasurer's report to April 1st, 1898, is here appended. I may say the figures below will be materially changed when accounts to date are taken from them. I must also say the balances at the time of new elections should show a greater amount of money on hand. A longer time intervenes before available funds are forthcoming and it becomes necessary to borrow money to meet current expenses until that time. The city's balances up to date are as follows:

School fund.....	\$7,491 70
General fund.....	3,652 25
Fire and water fund.....	2,300 98
Library fund.....	1,145 58

NEWS ABOUT OUR NEIGHBORS

Continued from page 2

months. Ora had been staying with her sister the past winter and attending the high school in Whitewater. While at her home near Milton about four weeks ago during vacation she had the measles. As soon as she had recovered from this she returned to her sister's preparatory to resuming her school work when she was taken down with brain fever, which was the immediate cause of her death. The remains were taken to her father's home Monday, from which place the funeral was held on the same day at 1 p. m., the interment being at Milton. Among those in attendance were a large number of her schoolmates, some of whom acted as pall bearers. The floral offerings were numerous, among them being a beautiful collection of roses and carnations given by her classmates.

North Johnstown.

North Johnstown, April 26.—At the parsonage, Wednesday evening, Rev. J. C. Steele united in marriage Miss Julia Ellen Tooker and Paul Alexander Young. The young people perpetrated a surprise on the community, as no one knew of the approaching marriage. For the present they will remain at the home of the bride's brother, H. Tooker. Remember the W. O. T. U. meeting with Mrs. S. Hull Thursday afternoon. John Morton and wife, of Johnstown, were callers in this place Sunday. Mr. and Mrs. H. B. Osborn visited friends in Whitewater Monday and Tuesday. Mrs. Osborn remained until Friday. It is with feelings of sadness that we are obliged to chronicle the death of Miss Ora Howard, which occurred Saturday evening at the home of her sister, Mrs. Walter McComb, at Lima, after a very severe illness of two weeks' duration, of a relapse of measles. Ora was a lovely girl, seventeen years of age, and possessed of all those rare traits of character that endeared her to all with whom she came in contact. She contracted the disease which caused her death while attending school in Whitewater, and after partially recovering caught a severe cold in going from her home to the home of her sister at Lima. The heartfelt sympathy of the entire community is extended to the grief-stricken family in this hour of their great bereavement. Funeral services were held at the home of her parents, Mr. and Mrs. Rusk Howard Monday afternoon, Rev. G. B. Chambers officiating. The interment was in the beautiful cemetery in Milton. Mrs. Thomas Rice is some better. Mr. and Mrs. Willard Austin spent Sunday at G. E. Osborn's.

Rock River.

Rock River, April 26.—Arthur Platts and Eugene Davis of Milton, attended church here last Sabbath. Miss Ella Garthwaite, of Milton Junction, visited friends here from Friday until Sunday. The C. E. meetings will begin at 3 p. m. instead of 7:30 p. m. All are cordially invited to attend. Mrs. N. L. Rose is on the sick list. Dr. McManus, of Edgerton, is attending her. Mr. and Mrs. Orson Garthwaite, of Milton, called at Mr. and Mrs. John Ashley's last week.

"I feel it my duty to give you a truthful statement of what Chamberlain's Colic, Cholera and Diarrhoea Remedy did," writes J. S. Collins, of Moore, S. C. "I had a child about two years old, that had the diarrhoea for two months. I tried all the best known remedies, but none gave the least relief. When this remedy came to hand, I gave it as directed, and in two days the child was completely cured." Sold by People's Drug Co., corner Main and E. Milwaukee Sts.

Is the Baby Cutting Teeth?
Be sure and use the old and well tried remedy Mrs. Winslow's Soothing Syrup, for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Twenty-five cents a bottle.

CURES HEADACHE QUICK.

Dr. Davis' Anti-Headache. 25¢.

Put Your Hand

On Your Heart! See how It Beats! Does It Pound or Throb or Flutter.

Dr. Miles' New Heart Cure.

The Great Heart and Blood Tonic.

Regulates and Controls Unsteady Hearts, and Puts Them Right.

Unsteady, fluttering, irregular or intermittent heart action indicates weakness or disease. Weak hearts are the cause of many common disorders, such as indigestion, loss of appetite, kidney and liver troubles, thin, pale blood, nervous debility, etc. Dr. Miles' New Heart Cure strengthens weak hearts and cures heart disease. It is a great heart and blood tonic. It brings back the lost appetite, stimulates digestion and assimilation of food, and fills the blood with the pure elements of nutrition. It cures the heart nerves and the heart muscles, increasing the strength of the pulsations and sending the rich, red blood bounding through the arteries. It gives recuperative capacity to the organic functions of the system, carrying health, strength and vitality to every muscle, tissue and fibre of the whole body.

The falling strength of advancing years brought heart disease to Mr. A. T. Jackson, Kewanee, Ind. He writes as follows: "I was a sufferer from heart disease for three years, and finally got so bad I could not be raised up in bed to take medicine. I had to lie flat on my back, was short of breath, dizzy, and had smothering sensations and intense pain above my heart. I could get no relief from physicians, but the good angel came to me one day and left a pamphlet telling of Dr. Miles' New Heart Cure. As a last resort and without much faith as to its efficacy, I purchased a bottle of my druggist. The effect was almost immediate. My health rapidly improved and in a few weeks I was as well as ever. I am now seventy-two years old and in the best of health."

Dr. Miles' New Heart Cure contains no highly concentrated poisonous extracts, and will not injure the most delicate organism.

You run no risk in giving Dr. Miles' Remedies a trial. They have been before the public now for over twelve years, and their constantly increasing sale is the very best evidence that they possess superior healing qualities. Those in need of medical advice can have the services of the best physicians absolutely free of charge. Valuable book on diseases of heart and nerves sent free on request. Address, Dr. Miles' Medical Co., Elkhart, Ind.

A Big Week's Business.

Is the one just passed, and all on account of a special lot of very low prices on various lines through the store. If you have not received a copy of our special bill; call for one. It tells how we are selling Prints at 2c; Percales at 6¼c; Hosiery at 5c; Underwear at 5c; White Quilts at 49c; Silkolines at 7½c; Lace Curtains at 49c per pair; and many other every day necessities in every line.

Ladies' Correct Neckwear..

According to the latest mode; just such styles as you would see on display in the leading stores in large cities, and at prices just as low—probably lower. This store is well recognized as headquarters for everything desirable in ladies' furnishings. We show the new things when they first appear. The new full front Puffs, 69c, 89c. The new "Buckle Bow" made of fancy ribbons, 25c.

A Silk Waist...

Contains more real style and prettiness for the price than any other article of woman's apparel. Our silk waists are particularly noteworthy in this respect. They are made from the very latest silks, are elegantly finished, perfect fitting, and as attractive as a silk waist can be; \$3.75 and up.

A Stylish Veil...

Adds to the attractiveness of any woman. It's the finishing touch which completes the chic appearance sought after by all correct dressers. All the new things in Veils are shown here first, and always at a lower price than you would have to pay elsewhere—20c, 25c, 30c, 35c per yard.

Millinery...

There will be war and rumors of war, but the spring bonnet will blossom on time, it breaks the old man. Lively business in this department every day. We show Janesville's leading line of novelties and make a feature of hats that are stylish without the high prices. Have much to interest you and will be glad to have you call.

Sole agents for Her Majesty Corsets.

Sole agents for Butterick Patterns.

In calling attention to our line of Corsets we wish to draw particular attention to "Her Majesty's" Corsets.

The Corset Success of the Century.

Probably no Corset ever devised has met with the same solid and substantial success, or occupied the field so thoroughly as has "Her Majesty's" Corset. With full faith in its merits, the inventors and makers of "Her Majesty's" Corset worked tirelessly for years to convince the public that they had really discovered a boon to womankind. An unbreakable Corset—"Her Majesty's" Corsets are fully, almost solidly steeled, and every steel is so moulded to the form and so finely tempered that, while they brace the body firmly, they are supple and easy and will not break at the hips, making it the most remarkable Corset of the age. We will be pleased to show you "Her Majesty's" Corset any time you may call at our Corset department.

You will please bear in mind that we carry all the following well known brands of Corsets:

Royal Worcester, P. N., Model Form, P. D., Glove Fitting, Dr. Ball's, Warner's Health, Dr. Schilling's, American Lady, R. & G., Coralines, Ferris Waist, Duplex, Eclipse Nursing, Chicago Waist, 930 F. P., Genuine Jackson Waist, Thompson Ventilating, G. D., Summer Waist, Child's Nazareth Waists.

And then, remember we sell every one of these Corsets a little less for CASH than other merchants sell them.
